

## PADI Rebreather Diver and Tec CCR Diver Qualifying Certifications from other Organisations

		<p>This chart may be used to find the qualifying PADI Rebreather or Tec CCR certifications when crossing over from another training organisation. Look for the organisation and the student's current level at which it qualifies in the PADI Rebreather Diver or Tec CCR Diver program regimens.</p>										
		x	This certification qualifies the student to enrol in the next level of training above the one listed at the top of the column, provided all other prerequisites are met.									
		(+)	This certification meets some, but not all of the requirements for the training level listed at the top of the column. Please contact your PADI Office for details and possible options for meeting those requirements (if any).									
		(*)	This certification may qualify the student for the next level of training, but contact your PADI Office to confirm the rebreather is on the PADI register for training.									
		NA	This certification does not qualify for any level.

Note:

1. All prerequisites apply even if a student has a qualifying certification from another training organization. Example: The minimum age for Tec 40 CCR Diver is 18. A 16 year old with a certification that otherwise qualifies as at the Tec 40 CCR Diver level does NOT qualify to take the Tec 60 CCR Diver course due to age.
2. Certification standards change. Therefore, these qualifications may change without notice due to revision of PADI standards, another organization's standards, or other information. Be sure to use the most current version of this list, and contact your PADI Office for confirmation as appropriate.
3. All rebreathers used in PADI courses must be in the PADI register for training, as stated in standards.
